HOLLOWAY'S PILLS.

Impurities of the Blood. Impurities of the Blood.

In selecting the most appropriate medicine (G1 a particular allment, there may be some difficult? unless one can be found to purify, regulate, as improve the quality of the blood. These Pile possess and exert these three qualifications in an extraordinary degree. They enably the stomather to digest any ordinary food, increase the accretory powers of the liver, cleanse and purify the bloce, expel all morbid matter, and throw into the cisculation the purest elements for sustaining an repairing the frame.

Weakness and Debility. Weakness and Deblitty. [557]

How many persons suffer from deblity without knowing the causes why they are feeble! In make cases the stomach is the aggressor. Holloway's Fills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are therefore conficiently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Diseases of the Head and Heart. These formidable diseases are, unfortunately of frequent occurence; for the most part they ereep on gradually, but may be prevented by proper precautions. Hollowarys Pilis are the surest perservatives against all derangements of the brain and are the specifiest correctors of irregular circulation. If they be taken without delay when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvelous.

Females of all Ages and Classes. The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the percess, universal favour is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical priod—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach and Bowels.

Despondency, Low Spirits. Despondency, Low Spirits.

The misery occasioned by a disordered digestion is unfortunately, felt by most. These famous Pills should be taken in appropriate doses, to adjust the disturbed functions. They dispel headache, billiousness, nausea, lowness of spirits, and all similar allments. A course of these invaluable purifying Pills never fails in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience.

Influenza, Diptheria, Bronchitis, Coughs

In our changeable climate, few persons escape without colds, sore throats, influenza, diptheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty et effecting a cure. While the Pills are expelling all impurities from the body generally. Helloway's Ointment should be well rubbed upon the cheek and throat; it will penetrate the skin, reduce inflamation, and restore lasting soundness. Holloway's Pills are the best remedy known in the World for the following diseases:— PICKLES, SAUCES, JAMS, &c

ases,-none of which, we believe, were

nigh or low. If they have proved

nischievous, the Chief Justice alone mus

have perceived the disastrous effects. If

we go to the money acts we find three were acts of supply, one an act levying ½ per cent on Victoria real estate to pay for city

indebtedness, acts making trade sales as

well as imports pay on their value, and acts levying imposts on stock and vegetables.

We forgot-there was an act which we di not include in the first catalogue-an act to

of Mr. Needham's sweeping assertion about "legislative obliteration"; for the tax bills

vere only too readily sanctioned by the Legslative Council and Governor, and have

received even the signature of Her Majesty.

So much for the legislation, and so much to

the accuracy and caution of that profound

statesman in sober wig and brilliant colored gown who presides, like a pedagogue over

schoolboys, in the Legislative Council of Vancouver Island. If the very learned gen-

tleman alludes to the proceedings in the

House the present session as being injurious

legislation he is, with all his learning, a little

astray as to the meaning of terms; for no-thing that the Assembly has done this year

has as yet become law. If he thinks, with his brother officials, that the House was

wrong in reducing the expenses of the Gov

ernment-that \$750 should have been voted

or the Chief Justices' passage money and

\$1000 for his clerk, he may assume an impregnable position, but he takes nevertheless

view that is not entertained beyond the

Government buildings, unless indeed by our

ffete and fawning morning contemporary.

f the country performed cheaply is the in-

iquitous "legislation" that ought to be oblit-erated, and if that "golden horizon" to

which he alludes, means taking as much

gold out of the public pocket and conveying

egislative Council, we can safely say that

either his regret at the past nor his hopes of

public of Vancouver Island, Like his bril-

POLITICAL POMPOSITY IN

Practical experience shows us, however paradoxical it may appear, that the men who dispense the law are generally the worst law makers. There are, of course, and have been, brilliant exceptions to this rule; but if we take up one after another the instances where the two functions were or are combined we shall find as a general thing that the judicial mind makes a very narrow and contracted legislative one. Vancouver Island, we are sorry to say, affords no exception to this law. On the contrary, the experience of the combination of the office of judge with that of legislator in this colony compels us to assert that Her Majesty's Government made a scrious blunder when they admitted the Chief Justice of the Island to the Legislative Council. We are ready to acknowledge, and we believe we are only speaking the general sentiment that Mr. Needham is a valuable acquisition to the colony as a Chief Justice; with the exception probably of a little too much love for the gewgaws of more antiquated countries, and a slight disposition to relapse occasionally into some of the habits of the advocate -a failing oftentimes perceived in barristers when first donning the judicial robes—he is well adapted to his high legal position. When we take the learned gentleman, how-ever, from the bench and place him in the legislative hall, we are doing an injustice to his legal talents and his reputation. We are asking Paganini to make his own fiddles; and Kean to write his own plays. There have been manufacturing violinists before now, and actors who gave to the world dramas of considerable merit; but they are isolated instances of a versatility of genius which

circumstances do not lead us to believe Mr. Needham possesses. Independent, however, of the confined ideas which the continuous application to the study of law is apt in many cases to engender the Chief Justice of Vancouver Island like most of his colleagues in the Upper House, is a man entirely destitute of colonial experience, and also, like most of his colleagues, a man very difficult to break into colonial harness—very difficult in fact to The real misfortune is he knows too much. He knows the laws of England, he knows her forms and ceremonies; we dare say he could tell when Black Rod bows an inch too little and Gold Stick makes a movement too much-when the Lord Chancello has got his wig the tenth part of a hairline out of place, and when the Speaker of the House of Commons elevates his eyesbrows beyond the orthodox limits. All this and a great deal more we have no doubt is within his ken, but unfortunately the knowledge, valuable as it no doubt is in its place, is of little use in Vancouver Island. and least of all in making Vancouver Island laws. This is the mistake into which our Chief Justice has fallen; it is a similar mistake which makes English emigrants so often encumber themselves with every conceivable piece of ancient lumber on leaving home, and adhering rigidly to the old country habits, however inapplicable in the new land of their adoption. Of course they all sooner or later find out their blunder-the patriotic youth who will at first persist in the Bond street "make-up," whether he swelters in Melbourne or freezes in Montreal, is oblige after a time to relinquish his distinguishing mark of nationality, and the fussy old man, who looks on England as the centre of the universe and all outside an uncivilized mass of unintelligent matter, at last comes to the sad conclusion that he has been mistaken, and that nature is more impartial in her gifts than he at first supposed. We have therefore still hopes of Mr. Needham—we believe, as we have said before, that he will acquire some valuable knowledge by a resin dence in Vancouver Island and get rid at the same time of much of the old country lumber with which his head seems just now rather inconveniently stuffed. Until then, however,

they have not much of a reputation to lose, we will not press the matter. The first lesson which we would place before the President of the Council is the of modesty. It becomes no man, not even him of the greatest attainments, to put on the garb of pompous assurance and majestic condescension. In one so new to the business of legislation and so inexperienced in the colony's wants as Mr. Needham, such garments are simply ludicrous. When we hear him in grandiloquent style assert that if the colony could only obliterate its legislation acres of which are cleared and fenced. for the past eighteen months a golden horizon would loom up in the future, we are as much amused at his presumption as we are astonished at his recklessness. The legislation of the past eighteen months, thanks to the obstructive character of the Legislative Council has been confined to some half dozen acts, outside Supplies and Ways and Means. One of these acts admitted colonial barristers to practice in our courts on the same footing as professional men from the United Kingdom -a very imprudent act, perhaps, inasmuch as besides removing an injustice it broke up a legal monopoly. Another was the Com-mon School Act, affording gratuitous education to the children of the colony-a mischievous measure, no doubt, on the principle that " a little learning is a dangerous thing." Then we have an act for the election of Mayor and Council in Victoria, an amendment to the Land Registry Act, an act repealing a portion of the Telegraph Act, and an act to

LETTER FROM COMOX.

To the Editor of the 6th inst. "A Bound floating in the water near the Company's wharf, and in the absence of any testimony the jury brought in a verdict of "found drowned."

Mechanics' Boating Clun—We are glad to bear that it is contemplated to establish a mechanics rowing club in this city. A number of workmen have already consented to join the club, which will soon be in working of eder.

From San Francisco—The brig Tanner, with a cargo of live stock shipped by Mr. R.
M. Hutchinson of this city, arrived in Esquimalt harbor from San Francisco on Thursday night last.

Assessment Roll has been made out, while the truth is so many errors appeared in it that the Commissionors threw it out and ordered the Assessor to prepare a correct list, which he has not yet done. If further writes "they laid out a road for each side of the prairie one-half chain wide." For the upper prairie they laid out a road one chain wide for the greater part of the distance and then suddenly narrowed it to one-half chain, for what reason is unknown. I challenge "Spectator" to prove that any one wished to have "three main roads, each one chain wide, running through a tier of one hundred-acre claims." The thing is absurd. Or to prove that "the pulpit very nearly became a receptacle for hats, coats," &c.; or that anything approaching to ill-feeling was exhibited at the meeting so as to justify his concluding remarks. They constitute a libel on the settlement. As he has placed the word church in italies some may blame our preacher for allowing us to meet there, so I hink it right to state that the log but is not yet consecrated. As to the roads the Commissioners have neither the power to mark out the roads nor to call out the settlers to make them when marked out, granted them by the Road Act, 1860, which is solely for the repair and regulation of existing roads. If they had planned the roads for the general accommodation of tho settlement, the superintendent of roads might possibly have confirmed what they had done; but no one who knows the ground can say with "Spectator" that for "easiness of construction and choice of ground it could not be bettered." For instance the branch road to the upper prairie for a part of the way runs through a swamp, and for the next half mile up one of the setepest hills in the settlement, when there could be a direct road on the level top of ady ridge requiring scarcely any labor. I think that the main road ought to be a continuation of the road to Nanaimo heginning. the truth is so many errors appeared in it that the Commissionors threw it out and ordered

could be a direct road on the level top of a dry ridge requiring searcely any labor. I think that the main road ought to be a continuation of the road to Nanaimo, beginning on the river bank opposite Khus-kus-sum (Ford's Ranch) and extending northwards. But it is desirable that a disinterested party should mark it out.

The snow has now left the prairie, but rain prevents plowing. The winter has been very severe, numbers of cattle having died, and greater numbers of pigs.

HOLLOWAY'S CINTMENT AND PILLS, a certain emedy for diseases of the skin-Ringworm, curvy, scrofula, or king's evil, sore heads, and scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, electous wounds, rheumatism, contracted and stirjoints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

Holloway's Pills and Ointment.—Influaza, Colds.—In diseases of the throat and chest cnea, Coids.—In diseases of the throat and chest, a prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whateverthe condition of the patient, Holloway's medicines will restore, if recovery be nossible, the control of the patient, Monlowly's mendicines will rectors, it recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Hollowsy's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbife matur is expelled, and a appy revolution occurs throughout the system

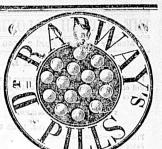

happy revolution occurs throughout the system.

HOLLOWAY'S OINTMENT.—Wounds, Scalds, Burns, and Irritating Seres.—The peculiarly milk, soothing, anti-inflammatory power exerted by this ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest exution and utmost vigilance. The scratch, the burn, or the scald, treated early with this ointment, assumes no angry aspect, and never long trues the little sufferer, whose very ery exists each bystander's compassion and pierces the particular forms of the surface of the production of the surface of the sur

Holloway's Ontment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quiele, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the suffere finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS .- Fistu HOLLOWAY' OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unehecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially heneficial in relaxing and removing strictures, whatever their situation or duration.

Holloway's Ointment and Pills—These potent remedies constitute a materia medica in themselves, for there is no i ternal or external disorder controllable by medicale for which the one or the other of them is not a positive remedy—craptions, tumras, serofula, secury, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the meat astouishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw aginable. The student of Nature appearance can through are her ways; if one preparation can through out all the impurities of the blood, disease is conquered and art is triumphant, because it adopte the simplicity of Nature.

RADWAY & CO., 87 Maiden Lane, New York. HOLLOWAY'S CINTMENT AND PILLS.—The werful remembers needs nothing more. Indigese, general dibility, liver complaint, eruptions,
sot , wounds, ulcers, tumours, &c., are infallibly ured by their use. They purify the blood
and g e tone and vigour to the whole system
The Comment, when well rubbed into the parts
affected, enters the flesh just as salt enters meat,
and if the Pills be taken as an auxiliary; one cure
is specify thereunds, and hermany. These and if the Pills be taken as an auxiliary, ne cure is speedy, thorough, and permanent. These medicaments are composed of rare baleams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

In carbon and the state of the

complaints in young and old, delicate and robust, HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all ciseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that Juncture would cut short many a serious and fattal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary induces of the Pills.

Huence of the Pills.

Holloway's Ointment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the frecirculation, and expel the disease. In these complaints, indeed, Holloway's Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and parifying qualities of the Pills have the happies effect in assisting the Ointment.

Holloway's Pills.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give steength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerfal activity of the physical and mental functions. Indigestion is the parent of so many evil, and is vo common, so universal a cemplaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at nand.
